The kingdom is under attack by an army of troll warriors, and it will take all the knights of LEGO Castle to stop them! Who will come to help the knights battle this new danger? (You'll find a hint hiding on this page!) ■

TROLL WARRIOR

These wicked warriors travel the world on land and sea, robbing peaceful villages of their gold everywhere they go. All they care about is loot and plunder...and lightning! Watch out for the Troll Captain, the meanest of the bunch!

GIANT TROLL

The giant trolls from the mountains may not be very smart, but they're incredibly strong! Each one is as powerful as ten smaller trolls...or knights. If you want one to do something for you, try offering it a roasted turkey leg. Giant trolls are always hungry!

Hey, Bikini Bottom builders! You demanded it, and you got it! Sandy's here, and she's built her very own rocket ship for even more out-of-this-world wackiness and adventures!

We spoke with LEGO senior model designer Kirsten Joel Bunch about how #3837 Rocket Ride was created.

Q: Are you a SpongeBob fan?

A: I love SpongeBob, and whenever I get the chance, I watch it with my kids. At work, we have a big collection of episodes, and I have watched them over and over.

Q: What can you tell us about the Rocket Ride set?

A: It's mainly based on the "Sandy's Rocket" episode of the TV show, but we wanted to get some of the Jellyfish Fields in there, too, so we made it into a mission to catch jellyfish in outer space. Then we gave SpongeBob and his friends a moon buggy, since you need one of those on a space mission!

Q: How did you design the set?

A: We started by watching a lot of episodes, and we gathered information from the Internet by reading SpongeBob fan sites. Then we lined up all our different ideas for models. The best 5 were presented to Nickelodeon, and together with them, we decided which model to make into a real LEGO set. We built lots of different versions of the rocket. Then we took the best one and improved it even more to make the final LEGO model!

Q: What's great about the model?

A: I like the rocketship shape, and I think the new space suits are great. Plus, it's SANDY'S ROCKET!!! The best vehicle in all of Bikini Bottom!

Take a Rocket Ride Today!

Q: How did you get the job of designing Sandy's famous rocket?

A: This model was one of the models that we knew would be great. Another designer and I worked on test models, and luckily, I was the one who got to make the final one!

MARS TECH 2.0!

THE ALIEN INFILTRATOR

Only Alien Commanders have the intelligence to infiltrate our defenses. These stealthy machines can convert from one mode to another in a matter of seconds.

It doesn't even pick. That's bad enough when they're blasting at you, but there's nothing scarier than feeling a whole army squish walking up over the edge of a crater.

It's a quantum leap in the battle for Mars! The new alien infiltrator can convert from one mode to flight modes, creating trouble for our brave astronauts. Even worse, they're piloted by Alien Commanders, a new breed of even bigger, tougher, and smarter invaders. To fight back, our astro-engineers have come up with a fleet of amazing vehicles with incredible multi-mode technology. Look out, aliens, because we've got a few new surprises of our own!
